

SLEEK, MODERN, POWERFUL, EYE-CATCHING BLADE SIGNS

COMMUNICATE YOUR BRAND ANYWHERE AND EVERYWHERE

New blade signs from Gemini are the perfect solution for businesses that want to convey a sleek, modern brand presence that is sure to attract the attention of customers. When space is tight, blade signs offer a cost-effective way to communicate a brand and draw in foot traffic, both off the street or within large indoor setting (shopping malls, hotels, stadiums, etc.). Blade signs offer sign shops an opportunity to expand their portfolio, fulfill a critical gap for their customers, and bring more business to their shop.

Blade Signs (aka flag, hanging, projecting or protruding) are signs mounted on a building façade or retail store pole or attached to a surface perpendicular to the normal flow of traffic. Blade signs are often illuminated both on the front and back. They're built and constructed to withstand inclement weather conditions. Single or double-sided, illuminated or non-illuminated, Gemini blade signs are engineered to project your message and grab the attention of passerbys.

LEGENDARY QUALITY

All Gemini products are built to last and are guaranteed with a lifetime warranty on letters and logos, and a five-year manufacturer's warranty on UL-Certified LED lights and power supplies.

For the highest quality in lighted blade signs, turn to Gemini.

WHY BLADE SIGNS FROM GEMINI

- Perfect solution for businesses in dense traffic locations
- Indoor and outdoor solutions (built to withstand inclement weather)
- Available in double-sided illuminated applications for 24-hour visibility
- Lifetime warranty on signage
