CAST & PRECISION TOOLED PLAQUES

Materials
All plaques are made using materials of the highest quality alloys. Whether lead- and mercury-free bronze, high-grade aluminum or lead-free brass. We cast metal plaques that make a lasting impression. All metal plaques come with a LIFETIME GUARANTEE.

Background Textures

- **Leatherette** (8'4" max. dimension)
- **Stipple** (8'4" max. dimension)
- **Sand**
- **Pebble**
- **Classic Leather** (Cast only 28" x 48" max)

Standard Borders

- No Border
- Single Line
- Insert Single Line
- Double Line
- Inset Double Line

- No Border Bevel*
- Single Line Bevel
- Inset Single Line Bevel*
- Double Line Bevel
- Inset Double Line Bevel*

- Single Line Wide Bevel*
- Projected Bevel*
- Double Line Wide Bevel*

Custom Borders

**Precision Tooled**
- Jewel
- Ivy
- Adam

**Cast Sculpted**
- Greek Key

Others borders are also available.
Background Colors
Shown are the most common background colors. There are 45 additional colors available along with custom color matching capabilities.

- Black
- Dark Oxide
- Brown
- Duranodic Bronze

Standard Finish Options

Brushed Finish: Horizontal brushed grain is standard on all plaques.

Edge Color: Plaque edge color is same as background.

Clear Coat Options: Satin is standard on brushed finishes. Gloss is standard on polished finishes. Matte is standard on PhotoRelief™. Clear coat for harsh environments is also available upon request at no charge.

Specialty Finishes
Specialty finishes that provide a classic look. Patina and Oxidized finishes are available in Bronze alloys only, Flash Bronze is an aluminum alloy treated to look like bronze.

- Light Oxidized
- Oxidized
- Dark Oxidized

Polished Finishes

- Polished Bronze
- Polished Brass Precision Tooled Only
- Polished Aluminum Precision Tooled Only
- Buffed Aluminum Cast Only

Aluminum will not have a mirror polish, but a bright reflective finish.
Portrait Options

Below are the most common portrait options available.

**Bas Relief**
Solid cast dimensional metal portrait attached to any cast or precision tooled plaque. Standard overall height of 4” to 24” with a finished depth of 3/4” to 1”.

**Flat Relief**
An alternative to the expensive and time-consuming process of bas relief, Gemini’s flat relief plaques are two-dimensional images that are part of a plaque.

**Etched**
Available in stainless steel, bronze, brass and copper.

**PhotoRelief™**
A seamless blend of casting and photography, PhotoRelief™ is perfectly suited for unique signage, historical markers, or any plaque that tells a story with words and pictures.

**Oval, Round & Rectangular Ceramic Inserts**
A photograph is scanned at high resolution and a digital transfer is produced and applied to the blank.

**UV Print**
For use in wayfinding, these all metal panels have your 1200 dpi full color image printed on aluminum, brass, bronze or stainless steel. These products are warranted for interior use, although they will last under most moderate weathering conditions.
CAST & PRECISION TOOLED PLAQUES

Mountings
Available in Blind Mount (no mounting hardware visible), Through Hole Mount (screw heads or screw heads with rosettes visible), or Stake & Post Mounts. Mounting options vary by type of plaque.

Surface Mounts

- **Blind Mount (Type A)**
- **Solid Wall Mount (Type B)**
- **Hollow Wall Mount (Type C)**
- **Wood Mount (Type D)**

Post Mounts

- **Post Mount (Type F)** up to 720 sq. in.
- **Post Cap Mount (Type R)** up to 30” x 30”
- **Square Post Side Mount** up to 5,040 sq. in.
- **Square Post Back Mount** up to 5,040 sq. in.

Stake Mounts

- **Garden Stake Mount (Type E)** Single stake up to 12” x 8” Double stake up to 20” x 8”

Rosettes
Rosettes are decorative covers, designed to conceal mounting screw heads used to mount bronze and aluminum plaques. Rosettes are available in various sizes, materials, finishes and types. Bronze rosettes with highlights have been oxidized, while aluminum rosettes with highlights are painted to match the plaque background. Screw heads can also be painted to match plaque background colors.

- R-1
- R-2
- R-3
- R-4 1” & 1½” only
- R-5
- R-6 1” & 1½” only
- R-7
CAST & PRECISION TOOLED PLAQUES

Cast Government Seals

Official armed forces insignia are produced in solid bronze or aluminum with blind mount screw holes (Studs included).

Choose from Army, Navy, Air Force, Marines, Coast Guard, Merchant Marines, Space Force, Department of Homeland Security, POW/MIA and Department of Veterans Affairs.

Standard sculpted sizes: 16", 18", 24", 30", 36", 40" & 48"

Wayfinding / ADA

Available in the standard 7" x 8.5" x .25" with a stipple or sand background or in your own custom design. All copy (standard lettering and Grade 2 Braille) and border is raised from the background. Lettering is raised .05" while Braille is raised .031".

Unlike other ADA compliant products – Gemini’s patent pending process does not use loose beads for the Braille component.
ETCHED PLAQUES

Materials
Available in thicknesses of 1/16", 1/8", 3/16" and 1/4". Multi-color painting, photo-etching, complex line art and polishing also available.

Alloy C22000
36" x 72" maximum

Naval Brass C46400
36" x 72" maximum

Alloy C11000
36" x 60" maximum

Alloy C304
Optional Alloy 316
36" x 72" maximum

Alloy 5052
36" x 48" maximum
Raised copy, halftone photographs & complex line art NOT AVAILABLE.

THIN GAUGE ETCHED

Thin gauge plaques offer an economical option for interior solutions. Thin gauge plaques do not have finished returns and are not available with stud mounts. Plaques are available with the options for holes or adhesive backs for mounting.

Available alloys include stainless steel, aluminum, brass, nickel silver and copper. Thicknesses from .018” to .050”.

Recessed vs. Raised

Recessed Image & Copy
The standard on all Acid Etched Plaques is recessed text and graphics that are paint filled.

Raised Image & Copy
When raised text or graphics is specified, the background will be painted, leaving the text or graphics in the alloy color.
CAST & PRECISION TOOLED PLAQUES

Cast Benefits

Metal casting is a 6,000-year-old process that has clearly withstood the test of time. A mold of sand or clay is crafted to the desired shape before molten bronze or aluminum is poured and allowed to solidify. The result is a durable, one-piece plaque that can be finished and mounted to fit the desired application.

Gemini has three foundries, and can produce bronze castings up to 96" in diameter and aluminum castings of even greater dimensions. All of our facilities melt their metal using nonpolluting electric furnaces, and use only prime grade, lead- and mercury-free alloys.

You should consider ordering a cast plaque from one of Gemini’s foundries if your plaque order requires:

- Integral sculpting and background textures
- Greater depth and dimension
- Sizes up to 96" circular diameter
- Letters 1/4" or taller - font style may vary
- Higher level of recycled content
- Multiple castings of identical plaques - discounts available
- Greater selection of border styles and mounting options

PRECISION TOOLED

Benefits

Gemini has the best pricing and fastest delivery of solid aluminum, bronze and brass plaques. The following are distinct benefits of buying precision tooled plaques from Gemini:

- Fastest production time in the industry—an average of ten days
- Detailed letters, logos, Braille and standard borders without extra costs
- Any size up to 40” x 84” in any fractional dimension
- Letters as small as 1/4” high with crisp, clean, deep edges—font style may vary
- Aluminum, bronze and brass metal options
- Lower carbon footprint than cast products
- Precise dimensions when alignment is critical
